GUESTS

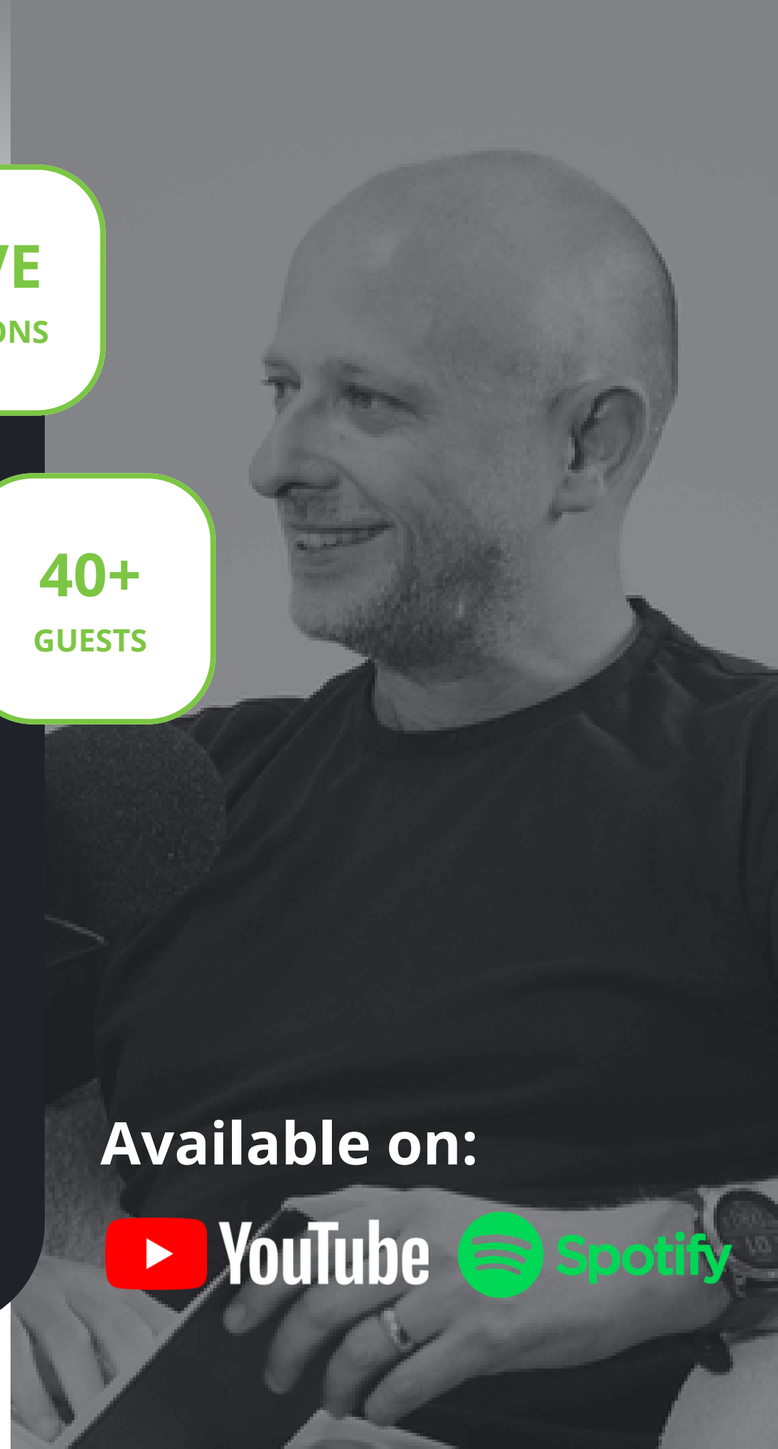

Humans in AI is *the* podcast exploring the people and ideas shaping AI Infrastructure, hosted by asobbi Founder and Managing Director, Nick Asbridge.

Each episode explores ideas, trends and challenges shaping AI Infrastructure, Neocloud and Data Centres, giving listeners an insider's perspective on one of the world's fastest-moving industries.

With an inspiring mix of C-Level executives and founders from the AI, HPC and Data Centre world, listeners get a unique glimpse into the culture and inner workings of their businesses.

Now entering Series 6, Humans in AI has featured guests including Jerry Tang (CEO, Atlas Cloud), Aaron Ginn (CEO, Hydra Host), Karl Havard (COO, Nscale/Era4), Seth Demsey (CEO, Corvex) and Shane Zide (VP Sales, Nebius), helping to connect and amplify the voices driving innovation across the ecosystem.
